

D2 Rust

PRODUCT DESCRIPTION:

Specific spotting agent for rust and other oxidation stains for both dry cleaning and laundry. It can be used both in pre-spotting and post-spotting.

Improved formula for the safety of the user.

Usually stains consist of various components so often it is necessary to use different products to complete the process of elimination of the stains. If you have a doubt on the composition of the stain start with D4 – Proteiche and do not use vapour to avoid fixing the stain.

DIRECTION FOR USE:

For identified stains see the D Line spotting table in order to follow the correct sequence of the spotting agents to avoid fixing stains.

Use:

1. Wet the stain with water
2. Apply some drops of pure D2, on the stain
3. Leave the product act for 15-30 seconds using a brush or a spatula if necessary
4. Heat with a steam gun if necessary
5. Rinse thoroughly with water and dry with compressed air
6. Repeat the treatment if necessary

Attention: Before use test the product on a hidden part of the garment

Product for professional use only.
