

## WOLPONAL PLV

**1. Purpose:** heavy duty detergent

**2. Chemical composition:** mixture of anionic and nonionic detergents

**3. Properties:**

appearance:	light pourable powder
charge:	anionic / nonionic

**4. Efficiency:** WOLPONAL PLV is a detergent appropriate for prewashing, heavy duty washing and main washing. Due to its special composition it is appropriate for washing all textile materials. WOLPONAL PLV is a properly proportioned combination of surface active substances, active oxygen carriers, hardness binding additives, enzymes and perfumes. Therefore it has an extraordinary cleansing effect, high soil carrying capacity even at low temperatures. Waste water is not charged because the product is biodegradable.

**5. Application:** dosage is dependent on degree of soiling and water hardness.

average: for 4 kg dry goods 65g

for 6 kg dry goods 100g

for 8 kg dry goods 130g

temperatures: 30°C for fine laundry of wool, silk, artificial

silk and synthetics

60°C for coloured laundry of mixed fabrics

95°C for boil-proof laundry of cotton, linen

**6. Storage:** at room temperature (20-30°C) at least 12 months in well closed, dry containers.

**7. Packing:** deliveries are usually made in 20 kg bags

**All results have been obtained from trials in our laboratory and plant. In the light of changing conditions, they can serve only as a guide, and are therefore offered without obligation. We ask that the possible rights of third parties are observed.**
